

# CITRIX XenApp 6.5

## 1. Introduction

- Introduction to Application virtualization
- Evolution of CITRIX XenApp
- XenApp Editions and Comparisons
- XenApp Features and Architecture

## 2. Installing XenApp

- XenApp Components
- XenApp Server Role Manager
- Hardware and Software Requirements
- Installation Decisions
- Server Configuration Tool
- Role-based install
- XenApp Configuration Options

## 3. Licensing XenApp

- Overview
- Installing License server
- License Communication Process
- License Types
- License Administration Console
- License File Management, Obtaining license file and configuring it
- Configuring license server

## 4. XenApp components

- XenApp Server Architecture and Communication
- Farm Configuration
- Datastore
- XenApp Zones
- Data Collectors and election
- Independent Management Architecture
- Independent Computing Architecture

## 5. Installing and Configuring WebInterface

- Web Interface Ports and Web Interface Communication process
- Web Interface Installation
  
- Site Creation and Site
- Authentication and Secure Access Configuration

- Server Configuration
- Web Interface Site Removal
- Configuring Websites and Services sites
- Citrix Plug-ins

## **6. Configuring XenApp Administration**

- Worker Groups and Managing Worker Group
- Administrator Privilege Levels
- Configuration Logging

## **7. Delivering Applications and Content**

- Published Resources and VM Hosted Apps
- Organizing Published Resources for Users
- Published Resource Configuration

## **8. Streaming Applications**

- Application Streaming
- Citrix offline Plugin
- Citrix Streaming Profiler and Targets
- Application Delivery Methods
- The Use Web Delivery Method
- Stream to Servers & publish a Streamed Application
- Configuring Sites for Streaming Applications
- Offline Access Management

## **9. Configuring Policies**

- Group Policy Integration
- Policy Evaluation
- Policy Rules
- Support for Policy Templates
- Policy Filtering
- Policy Modeling

## **10. Configuring Load Management**

- Load Manager
- Load Balancing
- Load Calculation and Load Evaluator Configuration
- Load Balancing Policies
- Preferential Load Balancing Example & Considerations

## **11. Optimizing the User Experience**

- Optimizing Session Performance
- HDX technology
- User Profiles

## **12. Configuring Self Service Applications**

- Self-Service Applications Technologies
- Citrix Receiver for Windows and Macintosh

### **13. Configuring Printing**

- Configuring Printing
- Printing Concepts, Default Printing Behavior& Altering
- Printer Provisioning and Auto-Creation
- Printing Pathways and Printer Drivers
- Citrix Universal Printing

### **14. Securing XenApp**

- XenApp Security Solutions
- Secure ICA

### **15. Monitoring XenApp**

- XenApp Health Monitoring
- License Usage Monitoring
- Monitoring XenApp farm

### **16. Additional Components**

VIPULAA
